Dear Client of A2Z Diagnostics,

During this ongoing pandemic, we will continue to provide updated testing and other relevant information.

We currently are testing for COVID-19 with results obtained within 48 hours of receipt into our lab. A2Z Diagnostics also offers synergistic syndromic testing for 21 other Respiratory pathogens (RPP).

The CDC recent Advisory update titled **Criteria to Guide Evaluation and Laboratory Testing for COVID** recommended that in addition to testing for Covid-19:

“Clinicians are strongly encouraged to test for other causes of respiratory illness.” CDC, March 24, 2020, Evaluating and Testing Persons for COVID-19 at (<https://www.cdc.gov/coronavirus/2019-ncov/hcp/clinical-criteria.html>).

We continue to keep up with obtaining respiratory kits for our clients to test their patients even in the face of national shortages of kits.

We appreciate your continued support of A2Z Diagnostics and should you have any questions or concerns, please feel free to contact us at the lab 24/7.

Be well and stay safe.

Regards,

A2Z Diagnostics
